

Dear colleagues,

The University of Banja Luka is hosting the 16th multidisciplinary international scientific academic meeting "Students Encountering Science–StES 2023" this November. StES is an opportunity for students from around the world to present their scientific achievements and it is going to take place in Banja Luka between 23 and 25 November 2023.

It is our pleasure to invite you to participate and present your scientific papers. You can apply if you are an undergraduate, master or doctoral student or a young researcher (under 30).

"Students Encountering Science" is the leading multidisciplinary students' scientific academic meeting, organized by the Students' Parliament of the University of Banja Luka. Our aim is to present students' scientific achievements and the possibility of their practical application, and also to determine the course of further research. StES is an opportunity to improve students' scientific research, promote academic spirit, exchange opinions, and make new friends.
